

STACK RING CO

Stack Ring Co® offers you a magical range of interchangeable stack rings.

Each ring is made of 92.5 sterling silver and plated with rhodium, which is a rare metal and makes our stack rings reflective in appearance and more durable. The collection has been carefully designed with you in mind. Design your own unique stack by mix and matching your rings.

Designer textured bands act as spacers between your chosen rings and add depth and height to your stack. Faceted gems, enamel flowers and love hearts in a variety of shapes and sizes will add statement and impact to your stacks and create a bright and colourful picture.

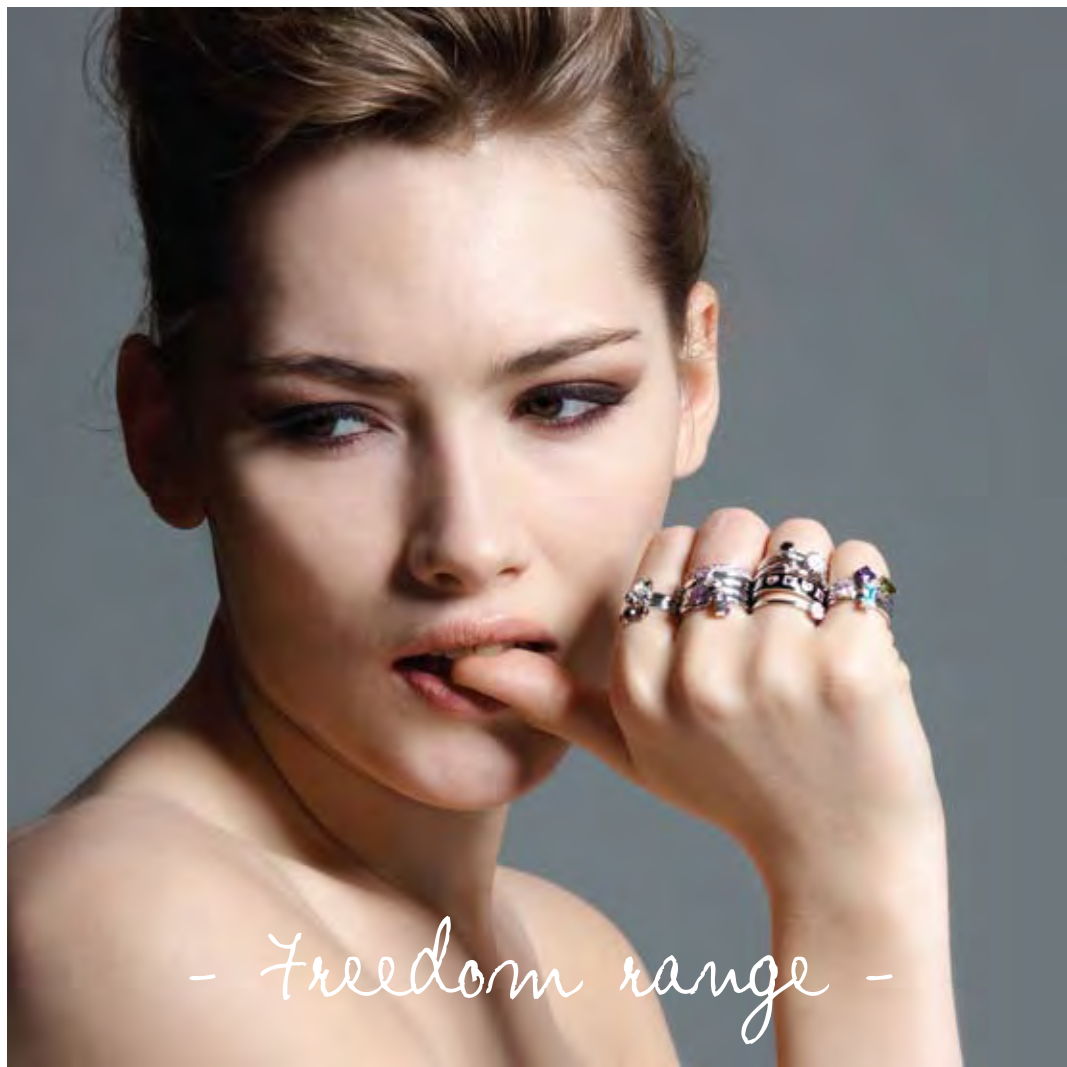

Each ring can be worn individually or stacked together to create your own style and design making a personalised piece of jewellery especially for you.

All the rings are available in the following sizes :
